

Industrial Water & Wastewater

Through our fifty years of experience in water and wastewater treatment construction, BCI has proven time and again that our tight focus on water treatment solutions makes us an invaluable business partner. We build for a spectrum of industrial markets, including food and beverage, landfill leachate treatment, manufacturing, pharmaceutical, energy, transportation and more. We can minimize the financial and management impacts of pretreatment and side-stream processes to allow our clients to focus on their primary business.

Services

- Construction Management
- Turnkey Construction
- Alternative Project Delivery
- Maintenance & Repair
- General Contracting

BCI is the industry leader in this field. As a result, we are able to offer you the most economical solutions without sacrificing efficiency or quality.

- During construction, we use value engineering of the treatment processes to ensure that we apply the best, most cost-effective technologies.
- Our level of communication and coordination is excellent, which helps prevent schedule conflicts and minimize disruption to operations of your existing facility. Regular team meetings ensure all issues are addressed proactively as construction proceeds.
- BCI leverages recognized technical experts to provide full-service expertise through all phases of your project.
- BCI remains your partner after construction is complete. We offer customized post-build services to provide quick and economical repairs, as well as future upgrades.

“They stayed with the project, even through adverse weather conditions. We would recommend Building Crafts to others and would certainly consider them if we did another project.”

- Ted Seger, President, Farbest Foods, inc.

Design/Build by BCI for Farbest Foods Pre-Treatment Plant, Huntington, IN (Pictured Top Right)

Seaboard Triumph Foods Wastewater Pretreatment Facility, Sioux City, IA

When Seaboard Triumph foods needed new pretreatment equipment for their industrial wastewater facility in Sioux City, Iowa, BCI was there to install it in their 17,300+ sqft space. We constructed new electrical, mechanical, gas conditioning equipment and SCADA systems. We also installed EPDM liners and covers on four 90,000 sqft lagoons and put in place gas conditioning systems and all associated piping, HDPE, Ductile, SS and PVC. The final system converts the facility's biogas into reusable methane to help power the plant.

Some of Our Clients

- Norfolk Southern
- Amtrak
- Kellogg's
- Butterball
- Republic Services
- CVG Airport
- Seaboard Foods
- Frito-Lay
- Koch Foods
- Unilever
- Kraft-Heinz
- Darling Ingredients
- Sunopta
- Nestle Prepared Foods
- Tyson Foods
- Dean Foods
- Paccar Engine
- Farbest Foods
- General Mills
- Keystone Foods
- John Morrell
- Martin Marietta
- Patheon Pharmaceuticals
- CSX Transportation
- Dayton Power & Light
- 100s of Municipalities
